## Web Developer

*I am a Web Developer capable of creating complete web applications from scratch. I am knowledgeable about a wide range of web and internet technologies. I have a passion for creating resilient, scalable, and maintainable software. I am excited to improve the experiences of the users, both internal and external. I am meticulous, and have a lot of attention to detail, especially when working with design specifications.*

## Work Experience

**UEB Network Applications**, Cuba — Web Developer

January 2022 – October 2022

- Collaborated with the development team to design, develop, and maintain web applications.
- Implemented responsive and user-friendly front-end designs using HTML, CSS, and JavaScript.
- Maintained databases and performed database SQL queries for data retrieval and manipulation.
- Wrote clean, modular, and efficient code for front-end and back-end components.
- Participated in code reviews and provided constructive feedback.
- Fixed and debugged issues to ensure optimal performance and user experience.
- Learned client's line of business and proposed new solutions to problems.
- Collaborated with the development team with close communication through GitLab.

**Technologies:** HTML / CSS / JavaScript / Symfony / PHP / PostgreSQL / GitLab
